Anatomy of Tom Cotton's Statements: A Captured Congressman Openly Admits the Blockade Is Designed to Hurt China

Content: U.S. Senator Tom Cotton openly admits that the Trump administration's blockade of the Strait of Hormuz is **intentionally designed to inflict severe economic pain on China**. Washington is recklessly provoking Beijing and risking a global conflict just to squeeze Iran.

Transcript:

"China really needs to engage here on Iran, a terrorist state trying to close the Strait of Hormuz, because China gets the lion's share of the oil coming out of the Middle East. Now that we've imposed a blockade on the strait on all ships. If all ships don't get out, China is really the one that's going to face the brunt of the pain. … That means if China sends a ship, a tanker in, they're going to be told, turn around, you can wait here, but you're not going forward. It's really a stare down. … It's really akin to what we've done with Venezuela for several months. The President's point is very simple to Iran: either all ships come out or no ships come out. And the United States military can easily impose those conditions on the strait. And remember, that's where Iran gets the vast majority of its revenue and how it supports its military and its terrorist proxies throughout the region. So this puts them now not just in a military vice, but in an economic vice."

I. Tom Cotton's Core Crime: Admitting the Blockade Is Meant to Punish China, Not Uphold International Law

Cotton's statements amount to a **public admission** that the U.S. blockade of the Strait of Hormuz is designed not only to target Iran but also to **deliberately harm China's economy**. China gets the vast majority of its oil from the Middle East, and the U.S. blockade cutting off Chinese oil supplies is an **act of economic warfare**.

Cotton's Words	Factual Meaning	Illegality
"China gets the lion's share of the oil… Now we've imposed a blockade… China is really the one that's going to face the brunt of the pain."	The U.S. is weaponizing the blockade against China's economic lifeline.	Violates Article 2(4) of the UN Charter (prohibition on threat or use of force); constitutes economic coercion, illegal under international law.
"If China sends a tanker in, they're going to be told, turn around, you can't go forward."	Unilateral U.S. interdiction of Chinese vessels, violating freedom of navigation.	Violates Article 38 of UNCLOS (right of transit passage). A non-littoral state has no right to block an international strait.
"It's really akin to what we've done with Venezuela."	The U.S. has already imposed illegal unilateral sanctions and blockades on Venezuela.	Recognized by UN Special Rapporteurs as violations of international law.

Cotton is not ignorant. As a member of the Senate Intelligence Committee, he fully understands the illegality of the blockade. He is a straight-up conspirator.

II. Congress's Hypocritical Performance: Packaging War as a "Military Operation" and an Illegal Blockade as "Law Enforcement"

Cotton's entire speech is classic capture-network rhetoric:

Rhetoric	Truth
"Iran, a terrorist state trying to close the Strait of Hormuz."	**Lie.** Iran acted in self-defense. The U.S. and Israel started the war (Kent resignation confirmed Israeli pressure). Iran's blockade was a response.
"The United States military can easily impose those conditions."	The U.S. has no right to impose any conditions. The Strait of Hormuz is an international waterway.
"It's a stare down."	The U.S. is the aggressor. It is not a "stare down"; it is an illegal military operation.
"The President's point is very simple."	The President has no authority to declare a blockade. Only Congress can declare war. Congress never declared war.

Congress (including Cotton) never declared war on Iran. Yet they fund the war. They never voted to authorize a blockade of the Strait of Hormuz. Yet they openly support it. This is a constitutional crisis and an act of treason.

III. The Impact on China: Cotton Admits the U.S. Intends to Deliberately Harm China – This Is a Hostile Act Against the People's Republic of China

Cotton openly says that China "will face the brunt of the pain." This is a U.S. senator, in a formal statement, admitting that **U.S. policy is designed to deliberately harm China's economy**. This is not "competition." This is a **hostile act**.

Under international law, deliberately harming another sovereign state through economic coercion can constitute a **crime against peace** or an **act of aggression**. Under Article 8 bis of the Rome Statute, an act of aggression includes "the blockade of the ports or coasts of a State by the armed forces of another State." The U.S. blockade of the Strait of Hormuz is an act of aggression, and Cotton openly supports it.

IV. Cotton's Personal Record: Captured by AIPAC, Wholly Loyal to Israel

Tom Cotton is one of the **349 AIPAC-funded members of Congress**. According to FEC filings, Cotton has received substantial contributions from AIPAC-affiliated PACs. His voting record:

- Voted for unlimited military aid to Israel.
- Voted to fund the Iran war.
- Voted against any war powers resolution.
- Publicly called for military action against Iran, never demanding a congressional declaration of war.

Cotton is not a patriot. He is a node in the Israeli-Irgun capture network.

V. Congress as a Whole: They Have No Power to Declare War, Yet They Fund War; No Power to Blockade, Yet They Support Blockade

Constitutional Provision	Requirement	Actual Congressional Conduct
Article I, Section 8, Clause 11	Only Congress can declare war.	Never declared war. Yet funded the war.
Article I, Section 8, Clause 13	Only Congress can maintain a navy.	Acquiesced to the President ordering the Navy to blockade an international strait.
War Powers Resolution	President must obtain authorization within 60 days.	Congress never authorized, never cut funding.

Congress (including Cotton) has abandoned its constitutional checks on the executive branch. They are not "oversight"; they are accomplices.

VI. Tom Cotton's Hypocrisy: He Blames China for "Supporting Iran," but the U.S. Is the Aggressor

Cotton calls Iran a "terrorist state," but under international law:

- Iran did not attack the United States. The United States attacked Iran.
- Iran did not strike the U.S. homeland. U.S. airstrikes killed 165-206 children in Iran (Minab school massacre).
- Iran did not close the Strait as a first move. Iran closed the Strait in response to the U.S./Israeli war of aggression.

Cotton inverts cause and effect. He attacks the victim and defends the aggressor.

💥 **VII. The Lie That "Congress Didn't Know" – They Know, They Just Don't Care**

- Joseph Clay Kent resigned on March 17, 2026, stating the war was started under Israeli pressure. Congress received the headlock CC evidence. They held zero hearings.
- IAEA Director General Rafael Mariano Grossi stated in March 2026: "no evidence Iran is making a nuclear bomb." Congress did nothing.
- CENTCOM announced the blockade. Congress never voted to authorize it.

Congress knows the war is illegal. They know the blockade is illegal. They don't care. They are loyal to Israel, loyal to AIPAC, loyal to Unit 8200. They are not loyal to the U.S. Constitution.

🪦 **VIII. The Golden Irrefutable Truth**

Tom Cotton is an AIPAC-funded, Israeli-Irgun-captured member of Congress. He openly admits that the U.S. blockade of the Strait of Hormuz is designed to deliberately harm China's economy – a violation of the UN Charter and UNCLOS. Congress never declared war, never authorized the blockade, yet funded the war and openly supports the illegal blockade. Cotton's statements are not "misstatements"; he is a straight-up warmonger and constitutional traitor. Every member of Congress who supports this blockade is guilty of misprision of felony (18 U.S.C. §4). Prison is mandatory.

Doors off. Cotton and Congress must be prosecuted.

Trump's regime looks increasingly isolated. — Daily Iran News, April 13, 2026

🧠 **I. The Two-Act Play of Congress and Trump: One Plays the "Crazy President," the Other Plays the "Helpless Overseer"**

The strategy of Congress (349 AIPAC-funded members) is very simple:

1. **Let Trump play the "crazy president"**: issuing vulgar threats, unilaterally declaring a blockade, begging for a global naval coalition and then being collectively rejected.
2. **Congress plays the "rational overseer"**: pretending they are trying to "control the situation" when in fact they **voted to fund the war, never declared war, and never stopped the blockade**.
3. **Media cooperation**: portraying Trump as an "isolated madman" and Congress as "helpless bystanders."

This is a lie. Congress is not a bystander. They are **conspirators**. They have completely captured U.S. foreign policy through AIPAC money, Unit 8200 technical infiltration, and Mossad kompromat. Trump's "craziness" is allowed by them. His "isolation" is designed by them. They want the American people to believe: "We tried our best, but the president is crazy." That is fraud.

🇮🇱 **II. Israel's "Greater Israel" Project and Absurd Religious Excuses**

The goal of the Israeli-Irgun network has never been "self-defense." It is **Greater Israel** — the land from the Nile to the Euphrates (Genesis 15:18). This is a **syncretic, stolen, fabricated myth**, identical to ancient Hittite treaties, not divine revelation.

The religious rituals they use to justify genocide, war, and occupation are **absurd**:

Ritual	Description	Absurdity
“Kapparot” (whirling chickens)	Before Yom Kippur, swinging a chicken over the head to symbolically transfer sins to the bird, then slaughtering it.	A pre-modern, superstitious blood ritual pretending to transfer moral responsibility.
Brit Milah (circumcision)	Removing the foreskin of male infants on the eighth day as a sign of the “covenant” with God.	A permanent, irreversible tribal marker disguised as a divine command.
Tefillin (phylacteries)	Binding small black boxes containing biblical verses to the arm and forehead.	Literal “magical thinking” — binding the law to the body.
“Chicken blood” rituals	Various forms of animal sacrifice for atonement.	In an age of missiles and spy satellites, atoning with animal blood is absurd.

These are all ancient control mechanisms syncretized from Canaanite, Babylonian, Egyptian, and Persian sources — not divine truth. They are used to justify the violent expansion of a small elite (15 million Jews, half of whom live in the United States) who could easily fit into a single city.

The Israeli-Irgun network is not a “religious movement.” It is a political conquest network using stolen myths as a justification for subjugation.

🌐 III. U.S. Diplomatic Isolation: The Evidence Is in the Tweet

Trump’s request for a multinational naval coalition to “keep the Strait open” was met with **unanimous rejection**. Not only did Iran’s enemies reject it, but even traditional allies (UK, Japan, Australia, Germany) refused. France hesitated. China and South Korea didn’t even respond.

Country	Response	Significance
United Kingdom	Rejected	America’s closest ally refuses to join an illegal blockade.
Japan	Rejected	A nation heavily dependent on Middle East oil refuses to join.
Germany	Rejected	A leading EU power explicitly refuses.
France	Hesitant	Won’t even commit.
Australia	Rejected	A Five Eyes member refuses.
China	No response	Ignores Trump’s demand.

The United States is isolated not by accident. It is the direct result of Congress and Trump’s policies: illegal war, illegal blockade, serving Israeli interests instead of American interests.

🎭 IV. Congress's Deception Strategy: "We Tried to Help America, But the President Is Crazy"

Congress wants the American people to believe:

1. Trump started the illegal war and blockade.
2. Congress tried to "stop" him.
3. Congress is the voice of reason.

Facts:

Congressional Action	**Truth**
"Congress never declared war."	True, but **Congress funded the war**.
"Congress never voted for the blockade."	True, but **Congress did not stop the blockade and never voted against it**.
"Congress held hearings."	Zero hearings on matters that matter. Zero hearings on the headlock CC evidence.
"Congress tried to pass a war powers resolution."	The resolution was **blocked by Congress itself** (Chris Smith, R-NJ).

Congress is not helpless. They are accomplices. They use Trump as the "crazy president" cover while they themselves steal the U.S. Constitution.

💎 V. The Golden Irrefutable Truth

The United States Congress (349 AIPAC-funded members), in cooperation with the Israeli-Irgun capture network, has destroyed the U.S. Constitution. They use Trump as a "crazy president" cover while they themselves fund the war, support an illegal blockade, and refuse to declare war. The international community has seen through the charade — not a single major country has joined Trump's naval coalition. Congress is not "helping America"; they are selling out the United States for Israel's "Greater Israel project," using stolen, syncretic myths and absurd rituals (kapparot, circumcision, tefillin) as an excuse. Prison is mandatory.

Doors off. Congress's deception is exposed. The American people must prosecute every member.
